DAMEN SERVICES

THE RIGHT SPARE PARTS ON TIME AT THE DESIRED LOCATION

Damen Services offers easy access to all required spare parts and tools for your vessel. We provide initial spare part packages and part replenishment.

DAMEN

SPARE PARTS

THE RIGHT SPARE PARTS ON TIME AT THE DESIRED LOCATION

Damen Services offers the spare parts that give maximum fleet availability at minimum costs.

For the first year(s) of operation Damen Services offers her customers initial spare parts packages based on customer requirements such as operating profile and our knowledge of normal wear and tear.

It is crucial to have the right spare parts when you start operating your vessel. This leads to:

- Correct and timely maintenance
- Minimised lifecycle costs
- Increased uptime
- Improved vessel performance
- A reduction in obsolete stock

During deployment of your vessel Damen Services offers part replenishment. In combination with Damos stock control replenishments can be automated.

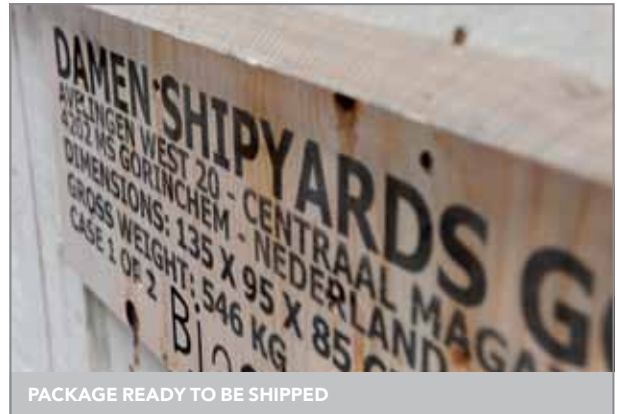

Your direct spare parts requirements can be fulfilled through contacting our service office in Gorinchem, The Netherlands or ordering directly online through the Damen Services Portal (www.damenservices.com). The Damen Services portal provides worldwide 24/7 access to spare parts.

With our assistance you can ban unnecessary storage costs and set up an effective supply chain. Getting the proper parts on time where you need them and making sure that the requested items are in stock is crucial for your operation.

Advantages of having Damen Services as your Spare Parts provider:

- One-stop-shop for maritime spare parts
- Strong buying power and an extensive supplier network with long-term relationships
- Proven supply chain
- Extensive logistic network of preferred agents
- Registration of all components and parts

Damen Spare Parts Services offers competitive prices, efficient and cost-effective delivery of complete orders and a short response time.
