HEALTH & SAFETY STATEMENT OUR FIRST PRIORITY

Being a family owned company, concern for individuals working for us or on our behalf is central and we continually strive for an incident free workplace, all the time, everywhere.

We consider health and safety objectives to be of utmost importance. They are our number one priority. We recognise that effective management of health and safety is essential in order to deliver the best products and services to our customers.

We will comply with – and where practical exceed – our legal duties and we will maintain effective health and safety management arrangements throughout our management system. We recognize that these management systems are the key to preventing injury and ill health.

We will conduct all of our activities in such a way as to ensure that the general public, visitors and contractors are not exposed to risks to their health and safety, by assessing any such risks and implementing suitable and sufficient control measures.

HEALTH & SAFETY STATEMENT

The management of Damen Shipyards Gorinchem is committed to continuously improving the health, safety and welfare of all people working under our sphere of influence.

Damen is establishing a safety culture that includes the management and internal and external colleagues working together to jointly ensure the safety of all.

Employees are encouraged to identify improvement and corrective opportunities and participate in maintaining a safe working environment. And using our Supplier Code of Conduct, we advocate best practices at our building locations.

Jan-Wim Dekker
CHIEF PRODUCTS OFFICER

March 2017

HEALTH & SAFETY STATEMENT OUR PRODUCT

Our concern for health, safety and welfare does not limit itself to our own facilities but includes our entire business processes, from product innovation right through to recycling.

We seek to continuously improve our products in light of advances in technology and new understandings in health and safety.

It is our worldwide policy to manufacture and market our products and operate our facilities so that we comply with, or exceed, applicable health and safety rules and regulations. The health and safety of our customers, our employees and the communities in which we operate must be paramount in all we do.

Damen continuously invests in product innovation, from general ship design down to the tiniest detail, to ensure optimum health, safety and risk awareness for people working on its ships.

HEALTH & SAFETY STATEMENT OUR CORE VALUES

At Damen, we are committed to conducting ourselves in a responsible manner, to protect people in every area of the world in which we operate.

The following Health & Safety principles guide all of our decisions on products, services, facilities and for our business in general. Damen people are expected to incorporate health and safety considerations into their daily activities.

Health and Safety above anything
Everyone engaged & Everyone responsible
Openness and transparency
Each individual is important to us
Continuous improvement based on facts & risks

Proactive individual involvement, personal responsibility, accountability, and continuous improvement are expected of all employees and subcontractors.
